

SILVER OAKS HEALTH CAMPUS

Silver Oaks is the newest facility in Columbus and offers a wide range of care services. They have assisted living, secure memory care (for Alzheimer's and dementia patients), a Healthcare Center for patients with higher care needs, and a rehabilitation center. All services are contained in different wings of the health campus. This can offer the advantage of a seamless transition for residents who may need to alter their level of care. Silver Oaks is owned and operated by Trilogy Health Services, LLC, which also operates other area health facilities including Covered Bridge Health Campus in Seymour, Hampton Oaks Health Campus in Scottsburg, and St. Andrews Health Campus in Batesville.

Open spots at Silver Oaks fill relatively quickly, and they often keep a waiting list of potential residents. Silver Oaks generally accepts residents at all levels of care and can do a home assessment to determine at what level the resident will be. Emergency admissions can also be accommodated, given availability.

Silver Oaks is primarily a private-pay facility and is usually not able to accept new residents who are on Medicaid. While there are roughly forty "Medicaid beds" at Silver Oaks, they are reserved for current residents who were private-paying but become in need of Medicaid. The rate that residents pay includes meals, snacks, amenities, a furnished room, and care services. In the assisted living facility, rates vary based on the level of care required of each resident and can range from Level I to Level IV. There is an additional expense for things such as cable, haircuts (hair services provided on site), and medications. Laundry can be done by the residents in assisted living or those services will be provided to them if they choose at no additional charge. Transportation is also available at no additional charge.

Silver Oaks offers both Private and Companion (with a roommate) rooms. Each room comes fully furnished but residents may bring their own furnishings if they wish. In the assisted living wing, each room includes a bathroom with walk-in shower and kitchenette. The memory care unit has private rooms each containing an in-room bathroom with walk-in shower. The rooms in the health center have bathrooms but residents use a shared spa facility for shower services.

There are three full-time and one part-time activities coordinators on staff. Depending on level of care, some of the activities offered include, excursions to restaurants and other attractions, exercise, cooking, movies, and gardening. Silver Oaks keeps an activities calendar posted and encourages residents to stay active. Residents are also encouraged to come to the dining hall for meals. Meals are served restaurant-style at the residents table but can also be provided in the room, if necessary.

The ratio of Certified Nursing Assistants (CNAs) to residents at Silver Oaks is one to seven. At all times, the assisted living and memory care units are staffed with a Licensed Practical Nurse (LPN) and a CNA. The Healthcare Center has three LPNs on duty and one to two Qualified Medication Aides (QMAs) or three CNAs. Silver Oaks

also employs a medical director who coordinates weekly rounds to check on residents and provide medical support.

Silver Oaks offers options for temporary or respite care for those who need a break from taking care of a loved one. The respite stay is paid daily and adult daycare services are even offered by the hour. There is no limit to how much or how often one is able to use these services. Silver Oaks works with Medicare, Supplemental Insurances and private insurances and the business office bills these insurances on behalf of the residents.
